[Login](#)

9. Allow access to the camera and Scan QR code. A time based OTP will be added to the App with your login id as name.

10. The OTP automatically resets after 30 seconds and a new OTP is available in the authenticator app.
11. If by some means OTP is removed from the app, again follow the same procedure to add OTP.
12. For login, go to www.etgva.com, enter existing login and password. Now enter the current OTP shown in the app. Then click on login.
